Design Methods for Internet Based Systems

Schedule presentations 2007

April 16th
- Peter Nagy: Pattern-Based Development of User-Friendly Web Applications (12)
- Nicolai Roovers: Modeling and Generating Application Logic for Data-Intensive Web Applications (20)
- Fei Gao: Rapid Prototyping of Web Applications Combining Domain Specific Languages and Model Driven Design (22)
- Xue Gao: Model-Driven Design of Web Applications with Client-Side Adaptation (11)

April 23rd
- Danilo Delizia: A Workflow-driven Design of Web Information Systems (27)
- Piotr Dittwald: From maintenance to Evolutionary Development of Web Applications: A pragmatic Approach (5)
- Christophe Debruyne: Exception Handling Within Workflow-Based Web Applications (9)
- Stefano Galzarano: Sharing Information on the Web using Bitlets (28)

April 30th
- Yan Gu: Modeling Applications for the Semantic Web (4)
- Kevin Pinte: A Platform for the development of Semantic Web Portals (15)
- Yinghui Wang: Comparison of Two Approaches for Automatic Construction of Web Applications: Annotation Approach and Diagram Approach (10)
- William Van Woensel: Towards a Common Meta Model for the Development of Web Applications (1)

May 7th
- Wenbin Yuan: Combining Conceptual Modeling and Active Rules for the Design of Adaptive Web Applications (13)
- Liang Hua: Modeling Heterogeneous Context Information in Adaptive Web based Applications (18)
- Edward van Rijn: Automatic Dialog Mask Generation for Device-Independent Web Applications (21)
- Yiming Chai: Web Application Internationalization & Localization in Action (19)

May 14th
- Liming Li: User Profiling Capabilities in OOWS (2)
- Thijs Braem: Interplay of Content and Context (7)
- Joachim Amys: Multimodal Interaction with XForms (26)
- Hendrik Lisby: Applying Transformations to Model Driven Development of Web applications (14)

May 21st
- Malika Nyachhyon: Assessing Quality in Use in a Consistent Way (17)
- **Jiaxue Qu**: Automated Evaluation of Web Usability and Accessibility by Guideline Review (6)
- **Hamzah Aljafari**: Conceptual Modeling & Code Generation for Rich Internet Applications (23)

Duration of the presentation: maximal 20 min

Gert Gielen: Modeling & Verification of Adaptive Navigation in Web Applications (16) ⇒REPORT
